# About Taepyung Steel

회사소개

## Message from CEO

It is my great pleasure to introduce Taepyung Steel Co., Ltd. I sincerely appreciate your interest and support.

Since its founding in 1981, Taepyung Steel has grown into a leading distributor and processor of steel pipes in Korea, with a strong foundation in structural square pipes.

Our headquarters is located in Sihwa Steel Land, and with Steel Centers in the Sihwa Industrial Complex (Ansan) and the Poseung Industrial Complex (Pyeongtaek), we continue to build on nearly 45 years of accumulated expertise.

Building on this foundation, we deliver an extensive range of steel products, such as structural square pipes, piping-grade steel pipes, structural sections, steel plates, stainless steel products, and more.

At Taepyung Steel, we strive to be more than just a supplier of steel products. We aim to be a trusted partner who works together with our customers to find solutions and create greater value.

Backed by a broad network of manufacturing and processing partners and deep industry expertise, we are committed to delivering reliable quality, competitive pricing, and on-time delivery.

Looking ahead, Taepyung Steel will continue to advance as a comprehensive steel distribution and processing company, always placing customer satisfaction at the core of our business.

We sincerely ask for your continued support and encouragement.

Chief Executive Officer Eui-Jun Yoo

# Business Areas

사업분야

**TAEPYUNG STEEL CO.,LTD.**  
Empowering the World with Taepyung Steel

## | Steel Distribution

As a trusted one-stop procurement partner, we supply a comprehensive range of steel products to both domestic and global markets. Beyond Korea, Taepyung Steel has extensive distribution experience in regions such as Abu Dhabi, Texas (USA), and Vietnam.

## | Custom Fabrication & Processing

We provide fully customized fabrication solutions tailored to each client's specifications—including material selection (with grade strength options), precise cutting (to length and drawing), surface treatment (painting and coating), and perforation or fine cutting. Every product is delivered with guaranteed quality and on-time performance.

# Core Competencies

핵심 경쟁력

## | Customer-Centric Agility

### Optimized Supply Network

Through a diversified network of trusted partners, Taepyeong Steel provides an integrated sourcing channel that enables customers to procure a wide range of steel products from a single source.

### Flexible Order Quantity

Unlike manufacturers, we impose no minimum order quantity. From a single piece to bulk supply, we help customers reduce costs and inventory burdens.

### Competitive Pricing

Leveraging our large-scale distribution network, we consistently maintain highly competitive pricing in the market.

### Customized Solutions

We offer tailored fabrication services for non-standard specifications and special requirements to meet each customer's precise needs.

# Core Competencies

핵심 경쟁력

## | Resilient & Reliable Supply Chain

### Reliable Supply, Anytime and Anywhere

We ensure steady and dependable steel supply and customer support — both in Korea and abroad.

### Dual Operation for Stability

With facilities in Ansan and Pyeongtaek, our dual operation system ensures continuous service and delivery reliability.

### Prepared for Any Situation

We maintain essential material reserves to respond quickly to unexpected changes or demands.

### Nationwide & Strategic Accessibility

Located near key logistics hubs and major industrial zones, we provide fast and efficient delivery to customers across the country.

# Core Competencies

핵심 경쟁력

## Proven Excellence

**Taeyung Steel** has achieved ISO 9001, ISO 14001, and ISO 45001 certifications, establishing a **comprehensive management system** that ensures quality, environmental responsibility, and workplace safety.

**Recognized for proven quality and reliability** through major industrial projects such as Incheon International Airport, Samsung Electronics, and SK hynix, Taeyung Steel has demonstrated its capability as a trusted partner in Korea's steel industry.

Officially certified as a secondary partner of Samsung Electronics and SK hynix, we continue to uphold **sustainable quality and reliable delivery performance** that our clients can depend on.
